Electrical rates cover reasonable access to electrical outlets and do not include connection of equipment or special wiring.

SINGLE PHASE ELECTRICAL SERVICE – any piece of equipment that plugs into a standard wall outlet will require 120-volt power. This includes lights as well as most office equipment.

- The amount of power each item requires will be indicated on its rating stamp.
- Determine the amount of power your exhibit lights require by totaling the wattage of each light.
(Example: If there are (10) 100-watt lights, order (1) 1000 watt service.)
